<b>ABOUT:</b>	<p><b>In backdays</b> I was a painter (watercolor, oil on canvas) and also got exelent drawing skills... besides that I am advance computer user all my life. I always wanted more from painting and drawing, so I replace my work in the digital world. Stayin in touch with every update and plugin for design tools like photoshop, illustrator, 3ds Max and other software. I'm geting along with new technologies very easy and trying to be original and a liittle bit different.</p> <p><b>I am very fast</b> and efficient in creating a website and the whole understandable web ecosystem. My websites are master responsive suitable for any devices like phones, tablets, monitors, tv`s and ready for all operating systems and web browsers. Very accurate in creating a clean code whether it is html, css, SQL, java or javascript and I keep them to work the way customers wants.</p> <p><b>In addition</b> to HTML I know all web creating methods like Joomla and WordPress, they are CMS ready. CMS means content management system a computer application that allows publishing, editing and modifying content, organizing, deleting as well as maintenance from a central interface ready for customers needs.</p> <p><b>I always trying</b> to find what the customer wants from their project and I`m giving my best to achieve it. I consult with the client to quickly and efficiently reach the target.</p>

Position: Graphic designer, illustrator, web designer  
part-time work / freelancer

A large number of part-time jobs on the website <http://www.99designs.com> which offers competition to create a logos, graphics designs, web designs, complete brands, illustrations, magazines and other creative projects.

**ADDITIONAL  
WORK  
EXPERIENCES:**

A large number of part-time jobs with various clients such as creating design solutions for logos, graphic design, web design, complete brand, illustrations, magazines and other creative projects.

**ABILITIES:**

**ADVANCED KNOWLEDGE OF ADOBE SUITE OF APPLICATIONS:**

Photoshop, Illustrator, Dreamweaver, InDesign, After Effects, Premiere, Flash ... their software and hardware optimization for faster response and smoother operations, as well as finding and installing the best possible add-on's and plug-ins that would expand the boundaries of the mentioned program, fonts, effects, image magnification without loss of quality, easier removal of complex backgrounds, optimized work in 3D and much more.

**WEB SITE DEVELOPMENT**

Fast and effective web site development and optimization for all devices (telephone, tablets, monitors, TVs ...) was it responsive HTML5 sites written in Adobe Dreamweaver, notepad or special ecosystems such as Joomla and WordPress CMS's. CMS is a content management system, which enables quick and efficient publishing, edit and modifying the content of the site without the knowledge of programming languages.

**SEO - WEBSITES POSITION OPTIMIZATION FOR SEARCH ENGINES:**

In addition to good design, web site needs to be seen on Google, Yahoo, Bing and other popular search engines on the best possible position. I always trying to be in trend with new SEO methods... the technology in this segment are changing almost on a weekly basis.

**PROGRAMMING LANGUAGES:**

HTML, HTML5, CSS, Java, Javascript, PHP, working with databases in SQL and MySQL environment. Navigating and finding defects in the code, as well as fast adaptation to new technologies and their application.

**CREATING AND MODIFYING 3D OBJECTS:**

Good managing in 3D applications such as 3ds Max, Artlantis studio, Twinmotion, SketchUp, Lumion ...  
Creating new objects, modifying objects, creating animations and other.

**VIDEO RECORDING, EDITING AND POSTPRODUCTION:**

I record most of my films in hand, inspired by the TV series "The Office (US)" and "Parks and Recreations" which were also recorded in hand on the move with great dynamics, without jolting and eyestrain. But still I adapt the project to the client needs. I've created a diverse and meaningful portfolios, various companies intros, advertising on the internet and TV as well as documentaries.

I use multiple tools for video editing: Adobe After Effects, Adobe Premiere, Virtual Dub, Smart Cutter ... and take care of the resolution and density for encoding files and use the appropriate codecs (x264, XviD) and certain formats (mp4, mkv, avi) for a variety of purposes whether it will be released on YouTube, Vimeo or on computers and TVs.

**HARDWARE & SOFTWARE**

I help users to pair the best hardware (computer) for their needs. I'm installing all operating systems and optimize

	<p>installed programs in details well as the system and bios. Testing and deploying components in the selection of best drivers and firmwares.</p> <p><b>PRINT:</b> High resolution prepress for all purposes: books, posters, flyers, banners ... taking care that there is no change of color, brightness or exposure while printing.</p> <p><b>EFFICIENT PROJECT ORGANIZATION:</b> Deadline for making a particular project is a crucial thing in most cases and project organization skills are very important. Project management is a critical job skill to manage the four basic elements of a project: resources, time, money, and most importantly, scope.</p>
--	---

<p><b>ADDITIONAL EXPERIENCES :</b></p>	<p>Visiting various seminars and workshops, free courses for the sake of expansion of the knowledge and self-study and research of new technologies on the Internet.</p>
--	--

<p><b>LANGUAGES:</b></p>	<p><b>ENGLISH</b> An advanced English language level.</p>
--------------------------	---
